

Do you work professionally out of the home or have a home-based business?

The Village of Waunakee is pleased to introduce the Northern Dane Home Endeavors Network (NDHEN). NDHEN is an expansion of the former Waunakee Lone Eagles Initiative, engaging professionals whose primary place of business is their home. The program is designed to provide business educational opportunities to those professionals, with guidance and support from experts who are trained in assisting small businesses. Additionally there will be a social component to the program, providing networking opportunities in a relaxed environment.
