

Road Construction Ahead!

2013 Main Street Utility Improvements Project

In preparation for the planned WDOT street improvements of Main Street, Waunakee Utilities, in cooperation with the Village of Waunakee, will begin utility construction improvements along Main Street in the next few weeks. The project will provide upgrades to the existing sanitary sewer and water main utilities along Main Street. The Utility Commission recently awarded the project to Allen Steele Company, Inc., from Lake Delton, Wisconsin. Allen Steele will be working with several local subcontractors during the project.

This newsletter contains some important information concerning the upcoming project and we encourage everyone to review it and keep it on hand to help answer questions that you may have.

SCHEDULED IMPROVEMENTS

The project limits will extend from O'Malley Street to Division Street and will include repairing the existing sanitary sewer system, re-lining the existing sanitary sewer main and service laterals, repairing the existing water main, installing some new water main, and replacing some of the existing water service laterals. All disturbed areas will be restored prior to completion.

IMPORTANT INFORMATION

Main Street will remain open to vehicle traffic during the construction; however there may be some lane restrictions to accommodate the construction activities. In addition to the lane restrictions, there may be some temporary driveway closures in several areas while the contractors complete their work.

The project may cause temporary service disruptions to existing sewer and water users, but the disruptions are anticipated to be minimal. Those affected will be notified in advance of planned service outages; however services disruptions may still occur in the event of an emergency.

Mail deliveries and refuse pick-up are expected to continue on their normal schedules.

CONSTRUCTION SCHEDULE

The construction is tentatively scheduled to begin the week of April 1st and it is anticipated to be completed by the middle of July, weather permitting.

Weekly project updates will be available on the Waunakee Utility and/or the Village of Waunakee web sites or you can contact Jim Madden, Village Construction Manager at (608) 850-8500 or via email at jmadden@vil.waunakee.wi.us.

CONTACTS & NUMBERS

If you are experiencing problems with your water or sanitary sewer services at any time during the project, please contact Waunakee Utilities at (608) 849-8111.
