

# Road Construction Ahead!

## 2017 Public Works Improvements Project

As part of this year’s street improvements project, the Village of Waunakee will be resurfacing the following streets in your neighborhood this summer:

- Knightsbridge Road from Winston Way to South Street**
- Kingston Way from Knightsbridge Road to South Street**
- O’Malley Street from Sixth Street to Eighth Street**

The resurfacing will consist primarily of the following improvements throughout the project:

- Pulverize the existing asphalt surface
- Repair the existing roadway base (gravel), as needed
- Re-grade the gravel base in preparation for paving
- Overlay the street with new asphalt pavement

The work on Knightsbridge Road is scheduled to begin on Friday, September 8<sup>th</sup>, and is anticipated to take approximately 1 week to complete, weather permitting. The work on Kingston Way and O’Malley Street will begin as the work on Knightsbridge Road is completed, and re-opened to traffic.

Weekly project updates will be available on the Village of Waunakee website (<http://www.waunakee.com>) in the Engineering Department section or you can contact Jim Madden, Village Construction Manager using the contact information listed below.

In order to accommodate the construction activities, these streets will be closed to thru traffic throughout the construction process, for each street. Residents within the construction zone will have access to driveways, however there may be short periods of time when vehicle access to your property may not be possible. **Please be aware that travel within the construction zone will be at your own risk.**

Regular refuse pick-up and mail deliveries will continue as scheduled for your neighborhood.
