

2018 Construction Projects Update...for the Week of June 4th

Village of Waunakee Improvement Projects

- **2018 Public Works Improvement Projects**

Wolf Paving and Excavating, Sun Prairie, Wisconsin

Topeka Trail from N Madison Street to Cheyenne Pass
Santa Fe Trail from N Madison Street to Cheyenne Pass
Cheyenne Pass from Topeka Trail to Lexington Drive

The water main in the 600 block of Cheyenne Pass has been installed and tested, and the Contractor will continue connecting the water service laterals to the new main, and also installing some storm sewer. Once completed in this block they will continue to install the water main in the 500 block of Cheyenne Pass. They will continue to remove the existing surface pavements, and concrete in advance of the water main installation.

A separate construction crew will begin rebuilding the street base in the 600 block of Cheyenne. This work will include removing the existing base and placing new stable base materials, for the installation of new concrete curb & gutter.

A copy of the construction plans, the Construction Newsletter, and Weekly Updates are available on the Village web site (<http://www.waunakee.com/821/2018-Public-Works-Improvement-Projects>)

- **2018 Cross Street Improvements Projects**

Krause Excavating, Markesan, Wisconsin

Cross Street from Water Street to North Madison Street

The Contractor is tentatively scheduled to begin the 2018 Cross Street Improvements project the week of June 11th, weather permitting. The new sanitary sewer will cross North Madison Street, and vehicle travel may be restricted. In addition, Water Street will need to be closed for several days to complete the installation of the new Sanitary Sewer. We suggest using alternate routes as the construction work progresses to these areas.

As part of the project, the structure at 109 Water Street scheduled to be demolished this week, was delayed a week.

- **Lawn Grass and Weed Complaints**

We encourage residents to use the "Request Tracker" on our web site to inform us of any lawn grass or weed issues. <http://www.waunakee.com/RequestTracker.aspx>

Private Development Projects

- **Kilkenny Farms – Phase 1 - Livable Communities by Don Tierney**

LMS Construction, Pardeeville, Wisconsin

The Contractors have begun installing the remaining underground utilities to complete Phase 5A of the development.

- **Westbridge – Phase 4/5 - Livable Communities by Don Tierney**

LMS Construction, Pardeeville, Wisconsin

The Contractors have begun installing the remaining underground utilities to complete Phase 5 of the development.
