

2018 Construction Projects Update...for the Week of July 2nd

Village of Waunakee Improvement Projects

- **2018 Public Works Improvement Projects**

Wolf Paving and Excavating, Sun Prairie, Wisconsin

Topeka Trail from N Madison Street to Cheyenne Pass
Santa Fe Trail from N Madison Street to Cheyenne Pass
Cheyenne Pass from Topeka Trail to Lexington Drive

The Contractors continue to rebuild the street base in the 500 block of Cheyenne Pass, and will continue into the 300 - 400 blocks of Topeka Trail. This work includes removing the existing base materials, and placing new stable base materials. Rain events continue to slow the progress.

We anticipate that the concrete Contractors will be on-site to begin pouring sidewalks, curb and gutter, driveways and aprons this week.

The utility Contractors are completing the water main and storm sewer upgrades in the 300 – 400 blocks of Topeka Trail, then they will begin the utility work on Santa Fe Trail. They will continue to remove the existing surface pavements and concrete, in advance of the water main installation. We anticipate that these removals will begin on Santa Fe Trail later this week, or early the following week, weather permitting.

A copy of the construction plans, the Construction Newsletter, and Weekly Updates are available on the Village web site (<http://www.waunakee.com/821/2018-Public-Works-Improvement-Projects>)

- **2018 Cross Street Improvements Projects**

Krause Excavating, Markesan, Wisconsin

Cross Street from Water Street to North Madison Street

The sanitary sewer, and water main utility installations are complete, and they will begin installing the storm sewer this week. They will also be replacing the water main, and rebuilding the street base on Water Street. North Madison Street will experience lane closures, and Water Street will be closed periodically in order to complete the work. We suggest using alternate routes as the construction work progresses to these areas.

- **Lawn Grass and Weed Complaints**

We encourage residents to use the “Request Tracker” on our web site to inform us of any lawn grass or weed issues. <http://www.waunakee.com/RequestTracker.aspx>

Private Development Projects

- **Kilkenny Farms – Phase 1 - Livable Communities by Don Tierney**

LMS Construction, Pardeeville, Wisconsin

The asphalt pavement has been placed to substantially complete the work in Phase 5A of the development.

- **Westbridge – Phase 4/5 - Livable Communities by Don Tierney**

LMS Construction, Pardeeville, Wisconsin

The asphalt pavement has been placed to substantially complete the work in Phase 5 of the development.
