Workshops on Wellness

Promoting a Healthier Lifestyle in Waunakee

Sponsored by: Village Center of Waunakee and
Waunakee Lions Club

“Pain Relief Laser Therapy. How Does It Work and What Does It Treat?”

Presenter: Michael Blodgett, DC, MS, Chiropractor with LSM
Chiropractic

Michael has been practicing chiropractic and sports medicine for over 3 years. Along with his Doctorate in Chiropractic he has a Masters in Sports Science and Rehabilitation. He utilizes chiropractic adjustments, soft tissue therapy, functional movement screens, and rehabilitation to help people recover from pain and perform at their optimal health. LSM accepts most health insurance, including Quartz, Medicare, and Blue Cross Blue Shield.

Presentation Overview

Cold Laser or Low Level Laser Therapy (LLLT) directs very specific light waves into your body to stimulate healing. This is a relatively new and non-invasive treatment. Different settings for laser therapy can treat different types of conditions such as tendinitis, arthritis, or nerve pain. This presentation will discuss how the laser works and the process of healing it stimulates.
