

TDS FIBER

COMING SOON!

Construction of a new fiber-optic network
in your neighborhood is about to begin.

**FLIP THE CARD OVER FOR DETAILS
ON WHAT'S GOING TO HAPPEN**

Thanks in advance for your patience
during the construction process.
We're excited to bring you this
state-of-the-art technology.

REGISTER FOR FIBER SERVICE TODAY!
TDSFIBER.COM

WHEN YOUR NEIGHBORHOOD FIBER PROJECT IS COMPLETE, YOUR HOME WILL BE READY TO WELCOME THE FUTURE.

Just imagine: Internet speeds up to 1 Gbps, TDS TV® and its Connected-Home DVR, plus crystal-clear phone service.

WHAT'S GOING TO HAPPEN?

PRE-CONSTRUCTION

A TDS representative will mark the fiber-optic network route with flags or spray paint.

WE NEED TO KNOW IMMEDIATELY if you have an underground watering system, fence, security system, or private power in proximity to the route.

Also, please:

- > Mark your systems with flags or paint

AND

- > Call 608-828-1701 for the construction representative

CONSTRUCTION

We'll use drilling and/or plowing techniques. Both are designed to limit disruptions. We'll also use existing utility easements and public right-of-ways as much as possible. However, there will be areas where digging is required. Construction will be completed as quickly as possible.

POST-CONSTRUCTION

Cleanup activities will promptly begin. We'll restore any areas disrupted by the construction.

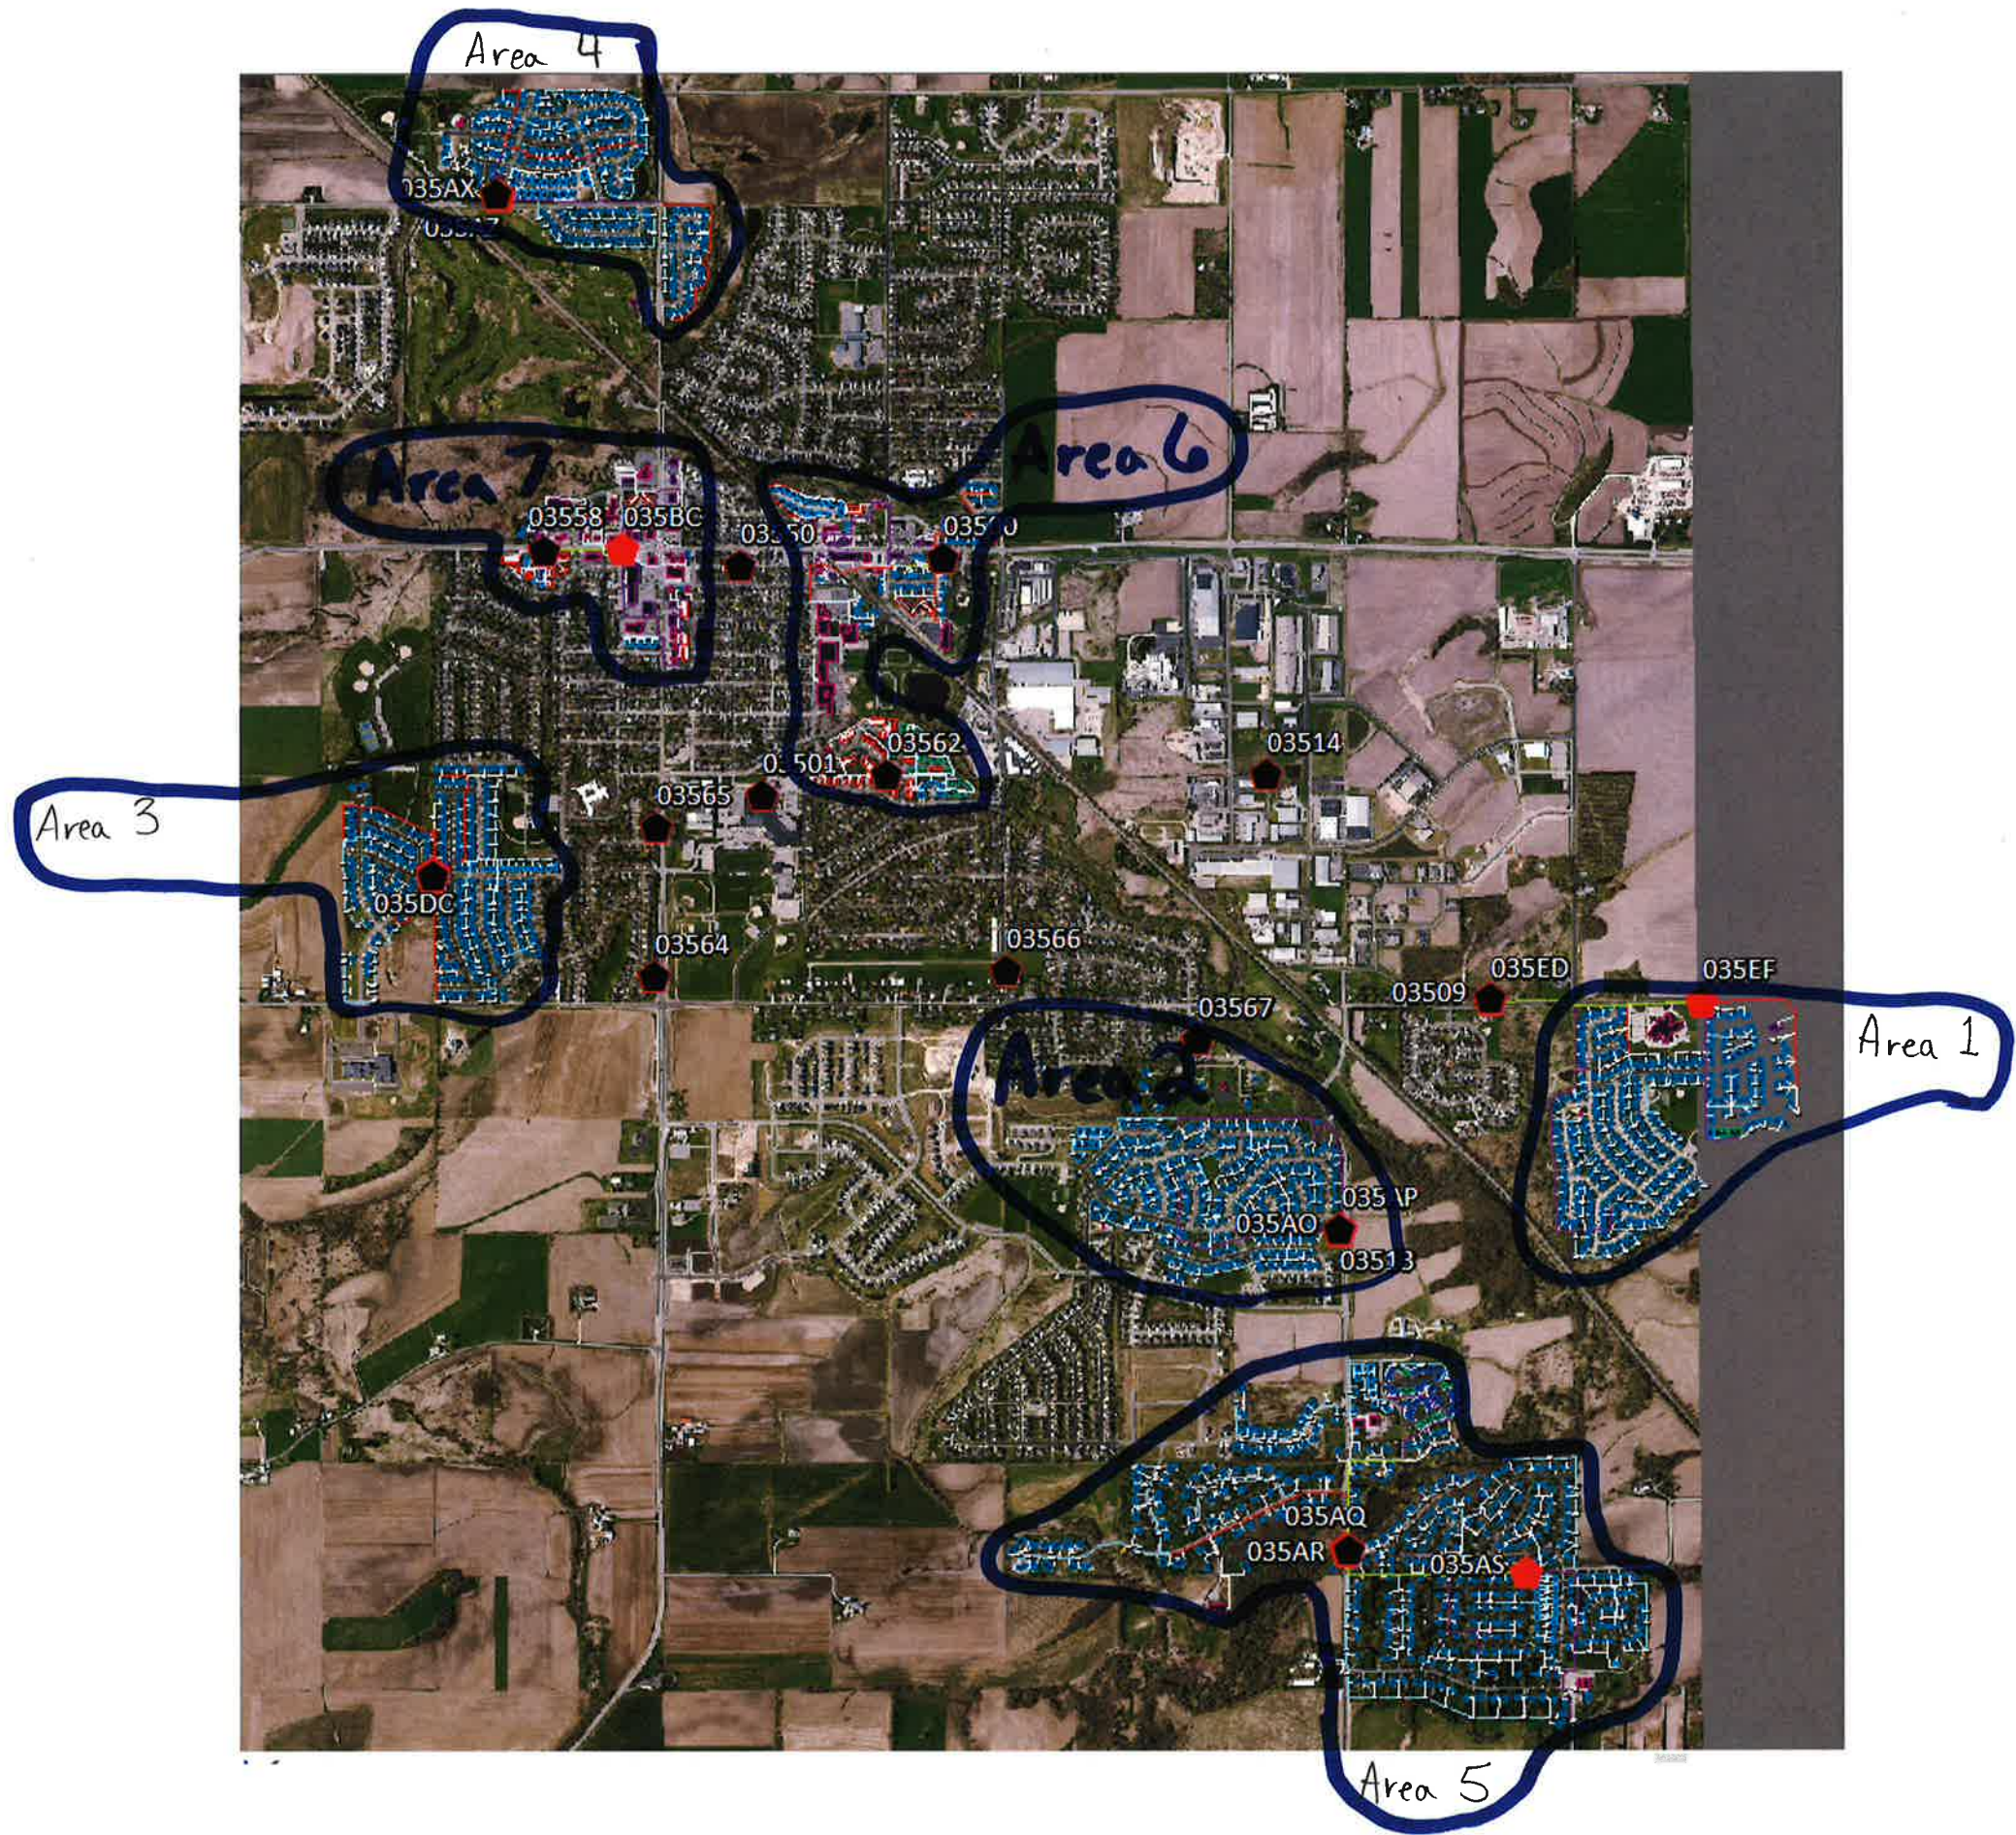

BONUS OFFERS AVAILABLE!

Register now and get free installation, and free HD for life.

To ensure your neighborhood receives fiber services, contact TDS today.

What's Going to Happen?

Pre-Construction

A TDS® representative will soon mark the fiber-optic network route with flags or spray paint.

Do you have an underground watering system, fence, security system, or private power in close proximity to the route? WE NEED TO KNOW IMMEDIATELY. Please:

- ✓ Mark your system with flags or paint **and**
- ✓ Call or email TDS construction representative Joseph McNeely at 608-493-9470 ext. 214 or joseph.mcneely@tdstelecom.com

Construction

We'll use a directional drilling technique. It's designed to cause the least amount of disruption to you. We'll also use existing utility easements and public right-of-ways as much as possible. However, since this is a construction project, there will be areas where digging is required.

Construction will be completed as quickly as possible.

Post-Construction

Shortly after construction is complete, clean-up activities will begin. We'll restore any areas that were disrupted by the construction.
